

LIVING STONE

COLLECTION

INDOOR & OUTDOOR TILES

A continuous stone language for interiors, terraces and the spaces between.

THE STORY

Born from stone. Made for life.

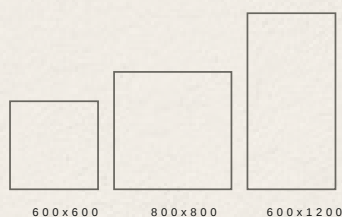

Living Stone began with a simple idea: capture the quiet beauty of natural stone and shape it for the way people live today. We studied weathered limestone, sun-warmed terraces, mineral-rich earth and the subtle marks created by time.

Rather than copying one particular stone, we refined its character: soft tonal movement, delicate grain and gentle imperfections. Six complementary shades emerged, sharing one understated texture and one continuous language from interior to exterior.
